

Visual Streamline FAQ

How can I change the date format within Streamline?

Within the Streamline.ini file there is a "DateMode" value. Changing this value will change the date format within Streamline.

DateMode = A "American date format is MM/DD/YY, displays as 02/01/93"

DateMode = E "European date format is DD/MM/YY, displays as 01/02/93"

```
